DETAILED ACTION

Response to Amendment

1. Receipt is acknowledged of the Amendment filed April 30, 2006. The applicant amended claims 1 and 53 to incorporate features of dependent claim 36 and cancelled claim 60.

Allowable Subject Matter

2. Claims 1-59 and 61-67 are allowed.

The following is an examiner's statement of reasons for allowance: none of the cited prior art of the record discloses, teaches, or fairly suggests the claimed encoded data being disposed on or a substrate in accordance with at least one layout, the layout having at least order two rotational symmetries. Furthermore, the coded data includes rotation-indicating data to distinguish the rotation of the at least one layout (Claims 1 and 53). After further search and thorough examination of the present application and in view of the Applicant's arguments and amendments, claims 1-59 and 61-67 are found to be in condition for allowance over the prior art made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
